EDUCATION

2024 → present
TAMPERE UNIVERSITY

- PhD candidate
- Topic: Signal Processing and Applications of SPADs for Passive Imaging

2020 - 2022
TAMPERE UNIVERSITY

- Master of Science (Computer Science)
- Major in Signal Processing and Machine Learning

2017 - 2020
TAMPERE UNIVERSITY OF TECHNOLOGY

- Bachelor of Science (Computer Science)
- Major in Software Development and Machine Learning

SKILLS

- 5 years of working experience in computer vision and ML
- C++, Python
- Matlab
- PyTorch and Tensorflow

LANGUAGES

- Finnish (Native)
- English (Fluent)
- Swedish (Satisfactory)

ALEKSI SUONSIVU

CAMERA ALGORITHM ENGINEER

PROFILE

Camera Algorithm Engineer & PhD Candidate with 5+ years of industry experience specializing in deep learning for image restoration and multi-modal sensor fusion. Proven track record of balancing full-time algorithm development with advanced academic research. An extroverted problem-solver who thrives in collaborative environments.

WORK EXPERIENCE

- **Huawei Technologies Finland** 2020 - PRESENT
Camera Algorithm Engineer
 - Engineered novel deep learning algorithms for image restoration tasks including deblurring, video interpolation, and super-resolution, utilizing multi-modal sensor data (CMOS, Event, and SPAD).
 - Pioneered research into passive SPAD imaging, developing end-to-end image processing pipelines, data-simulator and publishing research results in conferences and journals.
 - Directed experimental validation workflows, performing camera calibration, dataset capturing, and objective image quality assessment to quantify real-world performance.
- **Teleste** 2019 - 2020
Summer Trainee / Freelance
 - Embedded system and software testing
 - Hardware repair

SELECTED PUBLICATIONS

- Color Preserving CMOS-SPAD Fusion for Multi-Frame HDR
A. Suonsivu, L. Salmela, L. Helin, L. Uosukainen, G. Boracchi
Proceedings of the Winter Conference on Applications of Computer Vision 2026
- Accurate Simulation Pipeline for Passive Single-Photon Imaging
A. Suonsivu, L. Salmela, L. Uosukainen, E. Peretti, RC. Bilcu, G. Boracchi
IEEE Sensors Journal
- Dark Count Removal in Photon-Counting SPAD Arrays
E. Peretti, A. Suonsivu, L. Salmela, L. Uosukainen, RC. Bilcu, G. Boracchi
2025 IEEE International Conference on Image Processing (ICIP), 522-527

INTERESTS AND VOLUNTARISM

- Skateboarding, golf and playing music
- Culture journalist - Wappulehti Tamppi (2019 - 2022)
- Fuksicaptain - Guild of Automation ry (2018 - 2019)
